

Anders Miki Bojesen

DVM	2000
PhD	2003
Assistant prof	03-05
Associate prof	06-42!

Married to an associate professor
Three kids – soon four

PhD-students	3
DVM-students	10
BSc-student	8

Peer-reviewed manuscripts	23
Book chapters	4
Conference proceedings	40
Popular manuscripts	4

"New" bacterial genus

Gallibacterium infection in chickens
- a study of taxonomy, epidemiology and bacteria-host interaction
Ph.D. thesis
2003

Basic studies
prevalence
pathology
epidemiology

Molecular biological studies
virulensfactors
genome sequencing

DEPARTMENT OF VETERINARY MICROBIOLOGY
THE ROYAL VETERINARY AND AGRICULTURAL UNIVERSITY
FREDERIBERG DENMARK

Need for environmental change?

Employed at Dept of Disease Biology all the time

Veterinary Institute 3 mths
Monash University 6 mths

Boehringer Ingelheim
Lohmann International

Several national & international collaborators

Networking –not just a buzzword

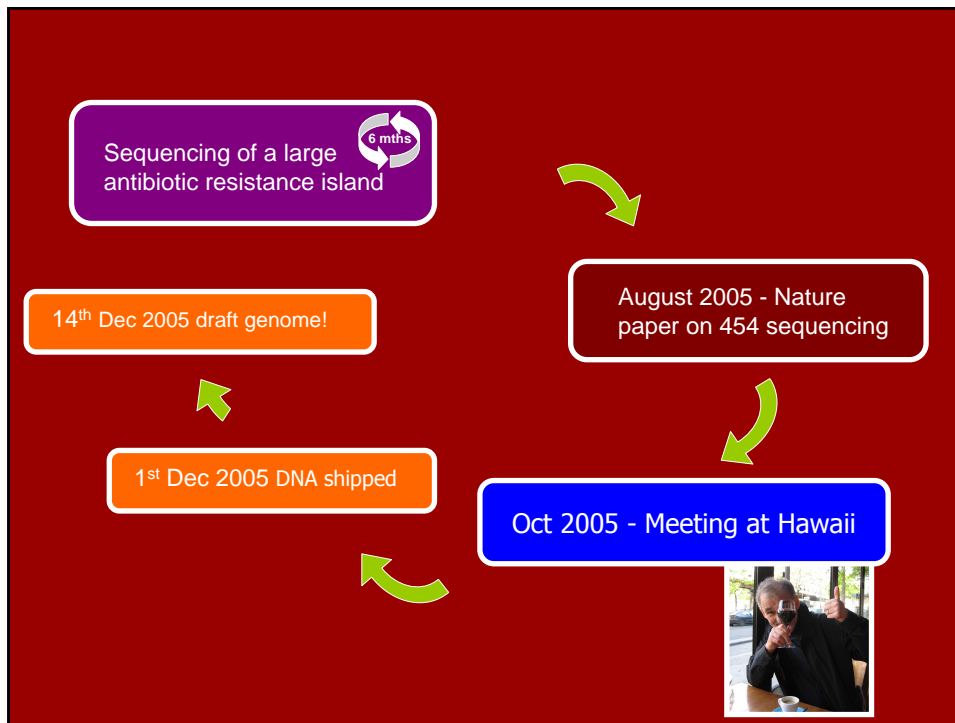

Complementation
knowledge
experience
inspiration

Be open about your needs

There is nothing like a joint effort

International community

Cultural input

How to decide for the future?

University employment

Define the ideal project

Know what you are worth

University employment

Flexibility

Less well defined goals

Thrive in "chaos"

Freedom to follow own ideas

Maybe hard to get a position

Define the ideal project

Whats your prime interest?

Where do you get the best opportunities?

Will you be part of a group?

Does the employment situation fit your family?

Know what you are worth

Set a goal for the future post PhD

Let your supervisor know what you aim at

Forget modesty!!

Get your own money
